I vehemently oppose this rate hike. My electrical bill has jumped hundreds of dollars for a single person who is gone during the day and who uses propane for heat with a back up heat pump that was supposed to save money. My last bill was \$465.33. In the past, the bill was rarely over \$200. It's ridiculous. GMP needs to cut costs. Efficiency Vermont also needs to go. It is a bloated bureaucracy with high salaries and nothing to show in terms of cost reduction. Please advocate on behalf of Vermonters Now is the time!
