

Viewpoint 1: Approximately 180° panoramic view from Vermont Route 103 northwest of the Project site, panning from north (left) to south (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 1: View from Vermont Route 103 looking southeast towards the northern end of the Project site. (50mm)

Viewpoint 2: Approximately 180° panoramic view from Vermont Route 103 near the intersection with Legion Drive, northwest of the Project site, panning from north (left) to south (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 2: View from Vermont Route 103 near the intersection with Legion Drive looking southeast towards the northern end of the Project site. (50mm)

Viewpoint 3: Approximately 205° panoramic view from Legion Drive north of the Project site, panning from northeast (left) to southwest (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 3: View from Legion Drive looking southeast towards the northern end of the Project site. (50mm)

Viewpoint 4: Approximately 180° panoramic view from Vermont Route 103 west of the Project site, panning from northeast (left) to southwest (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 4: View from Vermont Route 103 looking east towards the Project site. (50mm)

Viewpoint 5: Approximately 180° panoramic view from Vermont Route 103 west of the Project site, panning from north (left) to south (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 5: View from Vermont Route 103 looking east towards the Project site. (50mm)

Viewpoint 6: Approximately 180° panoramic view from Vermont Route 103 west of the Project site, panning from roughly north (left) to south (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 6: View from Vermont Route 103 looking east towards the Project site. (50mm)

Viewpoint Z: Approximately 180° panoramic view from Vermont Route 103 near the location of the proposed access, panning from north (left) to south (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint Z: View from Vermont Route 103 looking east towards the Project site. (50mm)

Viewpoint 8: Approximately 180° panoramic view from Vermont Route 103 west of the Project site, panning from northwest (left) to southeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 8: View from Vermont Route 103 looking slightly northeast towards the Project site. (50mm)

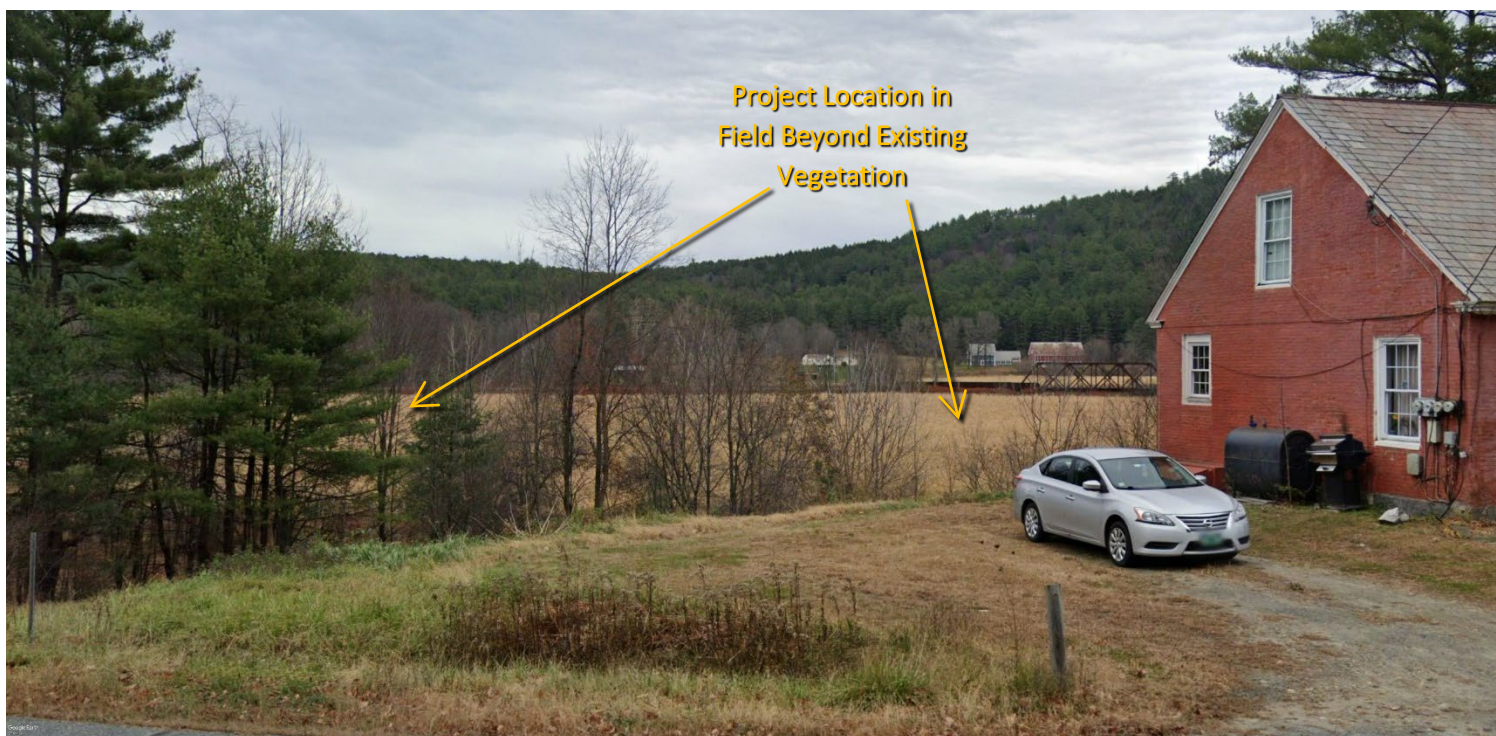

Viewpoint 9: Approximately 180° panoramic view from Vermont Route 103 southwest of the Project site, panning from northwest (left) to southeast (right). The orange rectangle represents the image below, which is captured with a 49mm focal length.

Viewpoint 9: View from Vermont Route 103 looking northeast towards the Project site. (49mm)

Viewpoint 10: Approximately 180° panoramic view from Vermont Route 103 southwest of the Project site, panning from northwest (left) to southeast (right) during leaf-off conditions. The orange rectangle represents the image below. (Google Earth Street View dated November 2024)

Viewpoint 10: View from Vermont Route 103 looking northeast towards the Project site during leaf-off conditions. (Google Earth Street View dated November 2024)

Viewpoint 11: Approximately 180° panoramic view from Vermont Route 103 south of the Project site, panning from northwest (left) to southeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 11: View from Vermont Route 103 looking north towards the Project site. (50mm)

Viewpoint 12: Approximately 180° panoramic view from Vermont Route 103 south of the Project Site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 12: View from Vermont Route 103 looking north towards the Project site. (50mm)

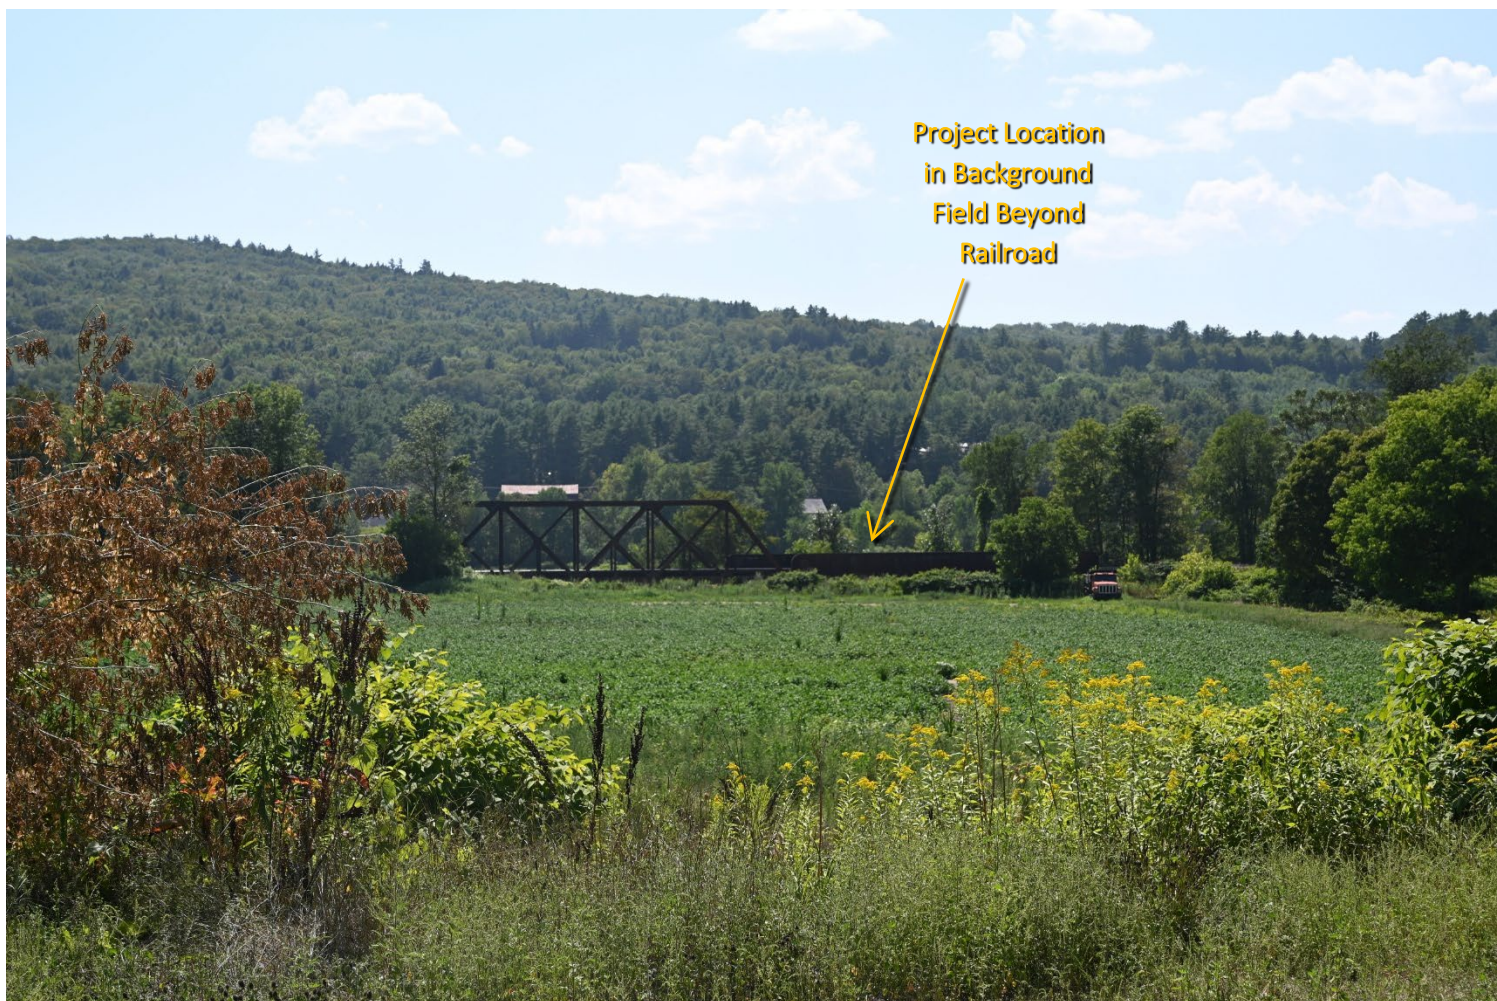

Viewpoint 13: Approximately 180° panoramic view from Green Mountain Turnpike east of the Project site, panning from southeast (left) to northwest (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 13: View from Green Mountain Turnpike looking west towards the Project site. (50mm)

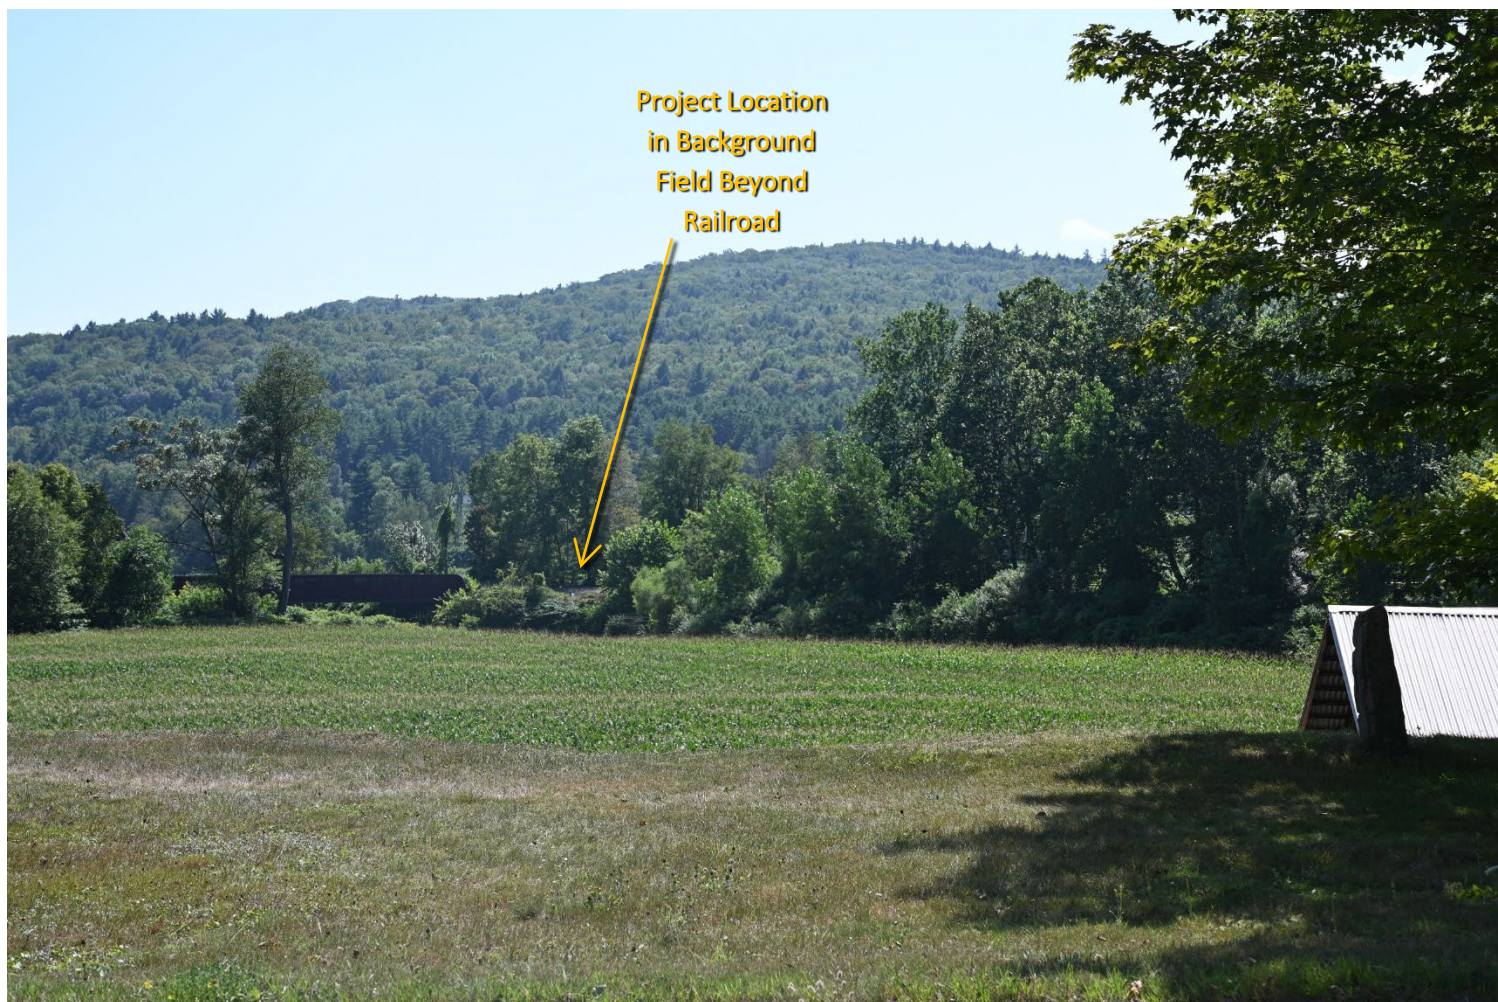

Viewpoint 14: Approximately 220° panoramic view from Green Mountain Turnpike east of the Project site, panning from roughly south (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length.

Viewpoint 14: View from Green Mountain Turnpike looking southwest towards the Project site. (50mm)

Viewpoint 15: Approximately 180° panoramic view from Green Mountain Turnpike northeast of the Project site, panning from southeast (left) to northwest (right). The orange rectangle represents the image below, which is captured with a 49mm focal length.

Viewpoint 15: View from Green Mountain Turnpike looking southwest towards the Project site. (49mm)
