Eric Kallio, Site Acquisition-Vermont
Industrial Tower and Wireless
40 Lone Street
Marshfield, MA 02050

Dear Mr. Kallio,

I am writing to support the application for the installation of a communications tower to be located off from Bordoville Road near Vermont Route 108 in the Town of Enosburg, Vermont. I'm writing this letter in support not for the Police Department but for St. Albans Central Dispatch. Central Dispatch is one of six 911 call centers and dispatches for every Fire and EMS agency in Franklin County.

This area is known to have dead spots for our current radio system while emergency calls are being dispatched. We would want to install our equipment at the top of a 120-foot tower to obtain the greatest radio coverage for that area. This proposed tower site would improve radio communication as we move forward in upgrading our service to the area.

The installation of the tower would be a valuable improvement for public safety communications for the following towns: Bakersfield, Enosburg, Berkshire and Fairfield Fire Departments and EMS services in the area.

Thank you for your consideration.
