02/12/2026	Purdy, Wanda Christine [PUBCOM]	Being a simple rate payer with limited knowledge of how electric rates are determined I will simply try and state my concerns. Everything is costing more. My power bill has 6 lines of costs. Seems a bit much, especially when you have two separate lines for storm fees. With the promise of solar, wind and appliances with power saving features to reduce our bills, we still have not seen any reduction. 7.50% seems excessive and this application should be scrutinized to the nth degree.
