02/26/2026	Alex, MacGillivray [PUBCOM]	I think it's ridiculous to increase electricity rates without considering reopening our nuclear power plant. Or building a new nuclear power plant for that matter. Complete incompetence of local government. Why did we even close it? I was too young at the time to be tuned into the reasons. But from today's perspective, we made the wrong decision there. Some people are paying \$400 / month for electricity even with gas heat. Make it make sense.	Filed
