 03/05/2026	Pendleton, Freya [PUBCOM]	We have electric heat and paid Over \$1000. each month this Winter to keep our pipes from freezing. If the 7.5% rate increase goes through it will be crushing. We have been Vermont homeowners for over 30 years and the price increases in everything from taxes to insurance and electricity have increased gastronomically. Who can afford it? This is unsustainable!!!!	Filed
