02/17/2026	Matuszak, Laura Marie [PUBCOM]	I am opposed to the BESS Project in Vergennes. While I can appreciate the need to store energy efficiently and inexpensively, we must also protect the safety and well-being of the people, plants, animals and waterways in Vergennes. This project does not provide the EPA recommended 330 feet safety zone. It presents a fire risk to our community and it endangers people and wildlife. This project does not serve the safety and health of Vergennes.	Filed
