03/16/2026	Levinson, Barbara [PUBCOM]	As a resident of Vergennes I strongly object to the proposed case 25-3076-AN for our community. The project is too close to residential, business and environmental locations. It poses a potential risk to the environment on both long and short term considerations. In case of immediate emergency, this is a small city with many residents, especially seniors and limited capacity in the area to evacuate or for the existing emergency and fire departments to adequately respond.
