

Geoff Martin

EDUCATION

Emory University, Atlanta, GA, August 2015 – May 2017

- Master of Science in Environmental Sciences
- Master's thesis: [Effectiveness of state climate and energy policies in reducing power-sector CO2 emissions](#). Nature Climate Change. Volume 7, pages 912–919 (2017)

Brown University, Providence, RI, September 2007- May 2011

- Bachelor of Arts in Development Studies with Honors

PROFESSIONAL EXPERIENCE

Norwich Technologies, Inc., White River Junction, VT, December 2022 – Present

Development Project Manager

- Manage the development of commercial-scale solar projects throughout Northern New England, including several Vermont 500 kW net-metering projects
- Develop testimony and prepare permitting documentation, including the management of environmental and engineering consultants
- Assess new business opportunities and leads, develop client relationships and negotiate contracts with landowners
- Support the development of Norwich's near- and long-term targets by market segment, understanding industry, market, and regulatory trends to set measurable and achievable goals

Two Rivers-Ottawaquechee Regional Commission, Woodstock, VT, August 2020 – December 2022

Intermunicipal Regional Energy Coordinator (IREC)

- First regional energy coordinator in the State of Vermont, working with 7 towns
- Responsible for implementing town and regional energy plans to advance climate goals by reducing energy consumption and transitioning to renewable energy
- Reviewed town plans for determinations of energy planning compliance
- Facilitated the development of renewable energy facilities for municipalities and communities

Town of Hartford, Hartford, VT, September 2017 – August 2020

Energy Coordinator

- First full-time, paid Energy Coordinator in the State of Vermont – developed and implemented Hartford's climate and energy program
- Led the development of the Town's Enhanced Energy Plan, which received an affirmative determination of energy compliance

LEADERSHIP EXPERIENCE

Sustainable Woodstock, Woodstock, VT, April 2018 – September 2024

Board Chair

- Led strategic planning and programmatic prioritization efforts, developed policies and procedures for the organization, assisted with grant writing and fundraising, and represented the board at public events
- Supported Sustainable Woodstock's Energy and Transportation Action Group
