COMMENTS OF THE VERMONT DEPARTMENT OF PUBLIC SERVICE

On March 27, 2026, Industrial Tower and Wireless, LLC (“Petitioner”) filed an application with the Vermont Public Utility Commission (“Commission”), pursuant to 30 V.S.A. § 248a, for approval to construct a telecommunications facility off Bordoville Road in Enosburg, Vermont (the “Project”). The Commission deemed the Project administratively complete on March 31, 2026, and set the comment deadline on April 30, 2026.

The Vermont Department of Public Service (“Department”) is unable to take a position on the Project at this point due to outstanding questions regarding colocation. In communications with counsel for Petitioner, the Department noted the existence of telecommunications facilities that Petitioner did not include in its colocation analysis and requested additional information regarding those facilities, pursuant to the requirements of 30 V.S.A. § 248a(c)(3) and the Commission’s Standards and Procedures Implementing 30 V.S.A § 248a. The Department understands that Petitioner intends to supplement the colocation analysis in response to the Department’s inquiry.

The Department requests the opportunity to comment on the Project after reviewing Petitioner’s supplemental filings.
