

Public Utility Commission and Department of Public Service Application Fee for all In-State Generation Facilities and for Energy Storage Facilities with a Capacity of 100 kW or Greater

For applications filed on or after July 1, 2019

Title 30, Sections 248b and 248c establish fees to support the roles of the Public Utility Commission, Department of Public Service, and the Agency of Natural Resources in reviewing applications for in-state generation facilities under Sections 248 and 8010 of Title 30. This form only applies to the fees collected to support the regulatory processes conducted by the Public Utility Commission and the Department of Public Service.

A separate application fee form is available for the Agency of Natural Resources.

When applying for Public Utility Commission (PUC) approval of an in-state facility under Sections 8010 and 248, complete this form and provide the original completed form and the fee payment to the Department of Public Service, and a copy of the form to the PUC as part of the application.

Application Fee

There is a \$100 flat fee for any facility eligible to use the net-metering registration form or the net-metering application form. These include:

- Projects with a plant capacity of 50 kW or less
- Rooftop projects
- Hydroelectric projects filing a net metering registration

For all other facilities, the fee is \$5 per kW.

Fees for Modification of Facilities

Any modifications of the following categories of projects must submit a fee of \$25 if a request for modification is submitted to the PUC.

- Projects with a plant capacity of 50 kW or less
- Rooftop projects
- Hydroelectric projects filing a net metering registration

For all other projects, a flat fee of \$100 is required for a request for modification.

For questions related to fees or payment, please contact:

**Public Utility Commission and Department of Public Service Application
Fee for all In-State Generation Facilities and for Energy Storage Facilities
with a Capacity of 100 kW or Greater**

(All fields must be completed for the form to be considered complete)

☐ **New Application** OR ☐ **Modification**

Application Fee Payment Form

For Electric Generation and Energy Storage Facilities – 30 V.S.A. § 248c

Project Information

Applicant Name: _____

Project Name or Identifier: _____

Project Type:

☐ Electric Generation ☐ Energy Storage ☐ Both

Location of Project (Physical address): _____

Project Placement (e.g., ground-mounted, inside building, or rooftop): _____

Plant or Storage Capacity (kW or MW): _____

Project Description: _____

If this is a Modification (Provide the existing CPG number or pending case number):

Fee Category (check one):

☐ \$100 (≤ 50 kW generation, rooftop solar, hydro net-metering, §248(n), or storage ≤ 1 MW inside a building and without any new ground disturbance that requires a 30 V.S.A. § 248 CPG)

☐ \$25 (modification of eligible facility listed above)

☐ \$5/kW (all other generation or storage projects)

☐ \$100 (modification of generation and/or storage facility that does not qualify as ≤ 50 kW generation, rooftop solar, hydro net-metering, §248(n), or storage ≤ 1 MW inside a building and without any new ground disturbance that requires a 30 V.S.A. § 248 CPG).

Payment and Signed Copy of Application (Follow Instructions Below):

The fee must be paid by check or cashier's check, which should be made payable to "The Vermont Department of Public Service" and mailed or delivered to:

Vermont Department of Public Service

112 State St.

Montpelier, VT 05620-2601

Checks must be accompanied by a signed and printed copy of the application fee form. Net-metering registration application fee checks should include the case number assigned by ePUC.
