

Appendix B

Photographic Inventory of Existing Conditions

Viewpoint 1

Panorama view from VT Route 100S in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 1

View from VT Route 100S approximately 0.51 miles west, looking east towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 2

Panorama view from VT Route 100S in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 2

View from VT Route 100S approximately 0.45 miles west, looking east towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 3

Panorama view from VT Route 100S in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 3

View from VT Route 100S approximately 0.33 miles west, looking east towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 4

Panorama view from VT Route 100S in the town of Newport, panning from northwest to southeast. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 4

View from VT Route 100S approximately 0.29 miles southwest, looking northeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Viewpoint 5

Panorama view from VT Route 100S in the town of Newport, panning from northwest to southeast. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 5

View from VT Route 100S approximately 0.29 miles southwest, looking northeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 6

Panorama view from VT Route 100S in the town of Newport, panning from west to east. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 6

View from VT Route 100S near the intersection of VT Route 100W, approximately 0.24 miles south, looking north towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 7

Panorama view from VT Route 14 in the town of Newport, panning from west to east. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 7

View from VT Route 14, approximately 0.29 miles south, looking north towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 8

Panorama view from VT Route 100W in the town of Newport, panning from west to east. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 8

View from VT Route 100W, approximately 717 feet southwest, looking northeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 9

Panorama view from Buck Road in the town of Newport, panning from west to east. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 9

View from Buck Road, approximately 527 feet south, looking north towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 10

Panorama view from VT Route 100W in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 10

View from VT Route 100W, approximately 412 feet west, looking east towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 11

Panorama view from VT Route 100W in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 11

View from VT Route 100W, approximately 371 feet west, looking east towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 12

Panorama view from VT Route 100W in the town of Newport, panning from east to west. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 12

View from VT Route 100W, approximately 448 feet northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 13

Panorama view from VT Route 105 in the town of Newport, panning from east to west. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 13

View from VT Route 105, approximately 1.02 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 14

Panorama view from VT Route 105 in the town of Newport, panning from east to west. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 14

View from VT Route 105, approximately 1.26 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 15

Panorama view from Eastern Avenue in the town of Newport, panning from east to west. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 15

View from Eastern Avenue, near the intersection VT Route 105, approximately 1.84 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 16

Panorama view from VT Route 105 in the town of Newport, panning from east to west. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 16

View from VT Route 105, approximately 2.71 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 17

Panorama view from Searles Road in the town of Newport, panning from east to west. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 17

View from Searles Road, approximately 2.75 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 18

Panorama view from Cross Road, near the intersection of Niles Road, in the town of Newport, panning from east to west. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 18

View from Cross Road, near the intersection of Niles Road, approximately 1.75 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 19

Panorama view from Niles Road, in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 19

View from Niles Road, approximately 1.31 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 20

Panorama view from Niles Road, in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 20

View from Niles Road, approximately 1.15 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 21

Panorama view from Niles Road, in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 21

View from Niles Road, approximately 0.84 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 22

Panorama view from Niles Road, in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 22

View from Niles Road, approximately 0.78 miles northwest, looking southeast towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 23

Panorama view from Niles Road, in the town of Newport, panning from north to south. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 23

View from Niles Road, approximately 0.72 miles west, looking east towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026

Viewpoint 24

Panorama view from Buck Road, in the town of Newport, panning from west to east. The orange frame represents the extent of the 50mm (35mm equivalent) photograph below.

Viewpoint 24

View from Buck Road, approximately 411 feet south, looking north towards the proposed Project. (50mm equivalent focal length). Captured April 8, 2026.

Novus Buck Solar Project

Photographic Inventory

April 13, 2026
