I'm Sean Davis, a rural fairpoint customer in Fairfax, VT. I'm looking to be put on the interested parties list for the proposed sale of Fairpoint to Consolidated communications.

Regards,
Sean

Subject: poor internet connectivity in Cambridge, VT

Hello - I'm writing because I'm very frustrated with the poor internet access provided by Fairpoint via DSL. It seems to be getting worse instead of better which is at odds with my understanding of how it was supposed to go when Fairpoint bought the Verizon assets. .
I would like to be put on the list of "interested parties" for the Fairpoint sale.

Thank you very much,

Subject: Poor connectivity, poor service

Please place me on your list of "interested parties" for the Fairpoint sale. I have been a Fairpoint customer for internet connectivity ever since they offered it at my address. What they offer at my address is the barest of connection, and repeatedly they "offer" more speed, only to retract the offer once the service order is placed.

My new husband has a work order in now for new service, and was told he could get "bonded connectivity" of 3.0 mbps and after three days of mix-ups and countless hours on the phone with Fairpoint reps, we are now told he can only get 1.5 mbps.

The old copper lines here have two obstacles: "load coils" and as I have learned today, no "provisioning platform". Just a half mile BEYOND my address, there is fiber optic service with up to 15 mbps, but when that was installed a couple years ago, the first 1.5 miles of 108 N (Bakersfield Road) out of Jeffersonville was not included in this new line.

My husband's work as a programmer for Global Foundries fabrication unit requires him to be able to access reliable internet 34/7/365, and this situation with Fairpoint is crippling.

ANY action likely to make the situation even worse is of grave concern!

Sincerely,

Judith L. Walls/Scott A. Leslie

Subject: Fairpoint Sale

Hi I live in Cambridge Vermont, my husband runs a small business from our home, and we have horrible internet available to us. I would like to be kept informed regarding the sale of Fairpoint, and what if anything is going to be done about the lack of good quality internet in rural Vermont.

Thanks.

Please put me on the list of interested parties for Fairpoint Communications information. Thank you. The select board chairperson in the town of Fletcher has recommended residents here request this. We are a bit at wits end over the terrible internet service we have here.
