General Public Comment				
-04/13/2026	Fourie, Philippa C [PUBCOM]	I do not agree that a radio tower is the only way to achieve this town's goals of improving safety communications when repeaters could be put on existing silos. Nor do I agree it will address cell service for the overall public as there is ONLY one space for that on this project. The site of this proposed tower is also far too close to a handful of family homes and not even in optimal location as it is only the edge of the coverage gap on 108 and it should be located much farther South on 108.
