

STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 19-0855-RULE

Proposed revisions to Vermont Public Utility Commission Rule 5.100	
---	--

DEPARTMENT OF PUBLIC SERVICE MOTION TO CHANGE SCHEDULE

On April 16, 2019, the Vermont Public Utility Commission (“Commission”) opened this rulemaking proceeding to review Commission Rule 5.100, which governs the construction and operation of net-metering systems and other small renewable energy plants under 30 V.S.A. § 8007. In an order issued August 22, 2019, the Commission requested additional information to assist in this proceeding.

The Department of Public Service (“Department”) has been developing its answers in response to the information requests issued by the Commission on August 22, 2019. However, illness and unavailability among Department staff has delayed this process. The Department requests two (2) additional weeks so it can submit a more considered finalized response.

Thank you for the opportunity to comment on this matter, please do not hesitate to contact me with any questions.

Dated at Montpelier, Vermont, this 16th day of October, 2019.
