Hi Judy,

Thank you for sending this update. We greatly appreciate the Commission's efforts to make reasonable and common-sense changes given the circumstances.

In a similar vein, I would like to renew my request that the PUC temporarily suspend the requirement that you mail a complete copy of the petition to adjoining landowners under Rule 5.100 as well as the requirement for certified mailings under Rule 5.100. These requirements are unique to net-metering filings—larger projects filed under Rule 5.400 and telecommunication towers filed under Section 248a are not subject to them.

The certified mailings require physical trips to the post office which violate the social distancing mandate in Vermont as well as the Governor's Stay Home Stay Safe Order. The requirement to mail a full copy of the petition to each landowner also poses unique challenges for staff now that law offices are shuttered under the Governor's Order and legal assistants are working from home with limited resources.

Thank you for considering these requests.

Be well,
Josh
