**Re: Case No. 20-0789-INV
Request for Comments on Potential Further Extension of Commissioning Deadlines**

Dear Commissioners:

Kendall Sustainable Infrastructure, LLC (“KSI”) supports the Commission’s consideration of a one-year extension of all net-metering and standard-offer commissioning deadlines that fall between March 25, 2020 and December 31, 2020.

The state of emergency due to the COVID-19 outbreak has affected the ability for solar projects to meet their construction, interconnection, and commissioning deadlines. An extension allows time for these projects to safely and effectively adapt and respond to a disruptive set of market conditions which continue to evolve.

Respectfully,

A handwritten signature in black ink, appearing to read 'John Chaimanis', with a long horizontal flourish extending to the right.
