Putney, VT 05346

To the Vermont Public Utility Commission,

Our Solar installation business, Southern Vermont Solar, LLC has been heavily affected by the coronavirus pandemic due to the restrictions for construction issued by the state for the Stay Home, Stay Safe Work Orders and customers who consider themselves vulnerable to the virus and need to keep in vigilant isolation.

Please extend all CPG deadlines established before March 27th, 2020. This will ensure that we will be able to service elderly clients later in the year when there is less threat from the virus, as well as allow our customers solar readiness for our installation work to happen.

In particular, we are requesting the two CPG cases, Jerry Hiam's Case #19-2730-NMR and Heather Doanne's Case #19-2640-NMR be extended. Both customers are not able to begin their projects because of circumstances directly related to the pandemic.

Please let me know if you have any questions. We are happy to provide additional information if needed.

Thank you,
Victoria Roberts
