Re: Case No. 20-0789-INV, Vermont Public Utility Commission orders and memoranda issued in response to COVID-19 pandemic

Dear Ms. Whitney,

Burlington Electric Department ("BED") submits the following letter in response to the Public Utility 's ("PUC") June 18th, 2020 Order Requesting Public Comments Responding to Request for Waiver of Commission Rule 5.508(B) for Certain Execution Deadlines. We note that in this Order, the PUC requested responses by June 9th, 2020. We apologize that we did not submit our comments by that date and request that the PUC accept our comments for consideration.

As described in the PUC's Order, Triland submitted a May 12th, 2020 request to the PUC to, "authorize, enable and direct Vermont's utilities to similarly extend, for net-metering and standard offer projects, the execution deadline of all Standard Generation Interconnection Agreements whose execution deadlines fall on or after March 25, 2020 through December 31, 2020."

BED finds the above request to be reasonable, so long as it is considered an extension of the deadline until December 31, 2020 rather than a waiver of the requirement.

BED is working on compiling answers to the PUC's questions presented in its Order and we will submit that information when it is available. Please feel free to contact us with any questions in the meantime.

Sincerely,

A handwritten signature in black ink, appearing to read "Amber Widmayer".
