Hello Darren,

Based on the attached rough sketch you sent, I am not seeing any wetland concerns with this solar project. Thanks for the opportunity to pre review. For tracking purposes, this is 2020-348.

Sincerely,

Rebecca

Due to the coronavirus (COVID-19) we are taking additional safety measures to protect our employees and customers and are now working remotely while focusing on keeping our normal business processes fully functional. Please communicate with our staff electronically or via phone to the greatest extent possible since our processing of postal mail may be slowed during this period. **You may now submit permit applications, compliance reports and fee payments through our new online form to expedite its receipt and review:** [https://anronline.vermont.gov/?formtag=WSMD\\_Intake](https://anronline.vermont.gov/?formtag=WSMD_Intake).

Division staff contact information can be found online here: <https://dec.vermont.gov/watershed/contacts>.

Thank you for your patience during this challenging time. We wish you and your family the best.

Hi Julie,

I hope all is well. I am getting ready to file a CGP application for a solar array at this location, and I am checking to see if you have any concerns related to wetlands for this location. I could not find anything near the site on state interactive mapping tool. I have attached a rough sketch of the proposed array location on the property. The location of the blue rectangle represents the array at **Lat:** 43.74241° N **Lon:** 72.37360° W

Thanks,

Darren
