

**STATE OF VERMONT
PUBLIC UTILITY COMMISSION**

Case No. 20-0789- INV

Vermont Public Utility Commission orders and
memoranda issued in response to COVID-19
pandemic

COMMENTS OF ALLEARTH RENEWABLES, INC.

AllEarth Renewables, Inc. (“AER”) offers these comments in accordance with the Vermont Public Utility Commission (“Commission”) Order of November 25, 2020 in this matter, in which the Commission requests comments regarding enlarging the current one-year commissioning extension to encompass projects whose commissioning deadlines fall “on or after December 31, 2020 through March 1, 2021.”

AER supports the extension as described in the November 25th Order, provided that any such extension is without prejudice to prospective further commissioning date extensions on either a generic or individual project basis. Supply chain disruptions and the business impacts of compliance with the Governor’s Stay Home, Stay Safe Order and addenda continue to adversely impact the installation of renewable generation projects, as the Commission recognizes in contemplating a longer extension. Enlargement of the extension as suggested by the Commission, with the caveat that further ones may be sought, is therefore appropriate.

Thank you for this opportunity to comment.

Dated this 27th day of November, 2020.
