Order entered: 09/23/2021

**PROCEDURAL ORDER LIFTING STAY AND COMMENCING NOTICE PERIOD**

This case concerns an application filed with the Vermont Public Utility Commission (“Commission”) by Randolph Davis Solar LLC (“Applicant”) to construct and operate a 500 kW group net-metered solar electric generation system in Randolph, Vermont (the proposed “Project”).

On August 18, 2021, this case, including the 30-day period for filing public comments, notices of intervention, motions to intervene, and requests for hearing, was stayed until the Applicant filed a letter from GMP conforming to the requirements of Commission Rule 5.107(C)(10)(a).

On September 22, 2021, the Applicant filed the Feasibility Study as Exhibit RDS-MS-11.

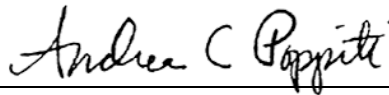

Because the Feasibility Study has been filed, I lift the stay and commence the 30-day period for filing public comments, notices of intervention, motions to intervene, and requests for hearing. The period will end on October 25, 2021.

Now that the 30-day period for filing public comments, notices of intervention, motions to intervene, and requests for hearing has begun, the Applicant must provide a copy of its application and notice of its application pursuant to Commission Rule 5.107(E) to all entities and persons entitled to receive such copies and notice within two business days of this Order. The Applicant must provide the case number when it provides copies and notice of the application as well as information on how members of the public may participate in this case. Notice shall include the following links to the Commission’s website:

- For information on the Commission: <http://puc.vermont.gov/document/citizen-guide-public-utility-commission>
- For information on public participation through public comment or intervention:
