Dear Clerk,

Please forward this message to who may respond. I represent a small group of Corinth Vt citizens who are very concerned about the size of the rate increase the Co-op is asking you to consider. We have reached out to our local representatives without getting any response back from them. We ask you to please help us keep this more in line with cost of living as there history of increasing is hurting us badly. In there newsletter they reference the need is because of Net Metering but everything we hear from our local and national government is the need to go Green but not all of us can afford the change at this time. Please give us some consideration in your decision.

Sincerely Philip Hayward
Corinth, Vt
