STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 20-0203-PET

Investigation into the establishment of reduced rates for low-income residential ratepayers of Vermont electric utilities.	
--	--

Vermont Electric Cooperative Request For Extension of Time

Vermont Electric Cooperative, Inc. (VEC) requests additional time to respond to the Order Requesting Comment on Model, which the Commission issued on October 4, 2022. More specifically, the Commission requested the electric distribution utilities to review a model that the Commission has created and check its numbers and calculations. The Commission also invited the utilities to provide modified or alternative modeling if they wish.

Given the complexity of the information requested and the desire to respond with useful and accurate information, VEC believes that additional time would be helpful and therefore requests that the deadline for responses be extended for two weeks, to October 28.

VEC has consulted with Green Mountain Power, the Vermont Public Power Supply Authority, Washington Electric Cooperative, Hyde Park Electric Department, Stowe Electric Department, and Burlington Electric Department, all of which support this extension request. VEC has also consulted with the Department of Public Service, which does not oppose the request.

Dated at Montpelier, Vermont, this 7th day of October, 2022.

	Respectfully submitted, VERMONT ELECTRIC COOPERATIVE, INC.  By: Andrea Cohen, Manager Government Affairs and Member Relations
