Affidavit of Daniel Goulet

1. My name is Daniel Goulet.
2. I reside at 185 Upper Loveland Road, Norwich, Vermont.
3. On the afternoon of November, 15, 2022, I observed a group of men engaged in discussion and pointing repeatedly to property I own.
4. I walked up to the location where people had gathered and engaged in the discussion. The discussion concerned logistics for getting large, lengthy logging equipment up the cell tower driveway to the proposed Upper Loveland Road Norwich Solar Technology project area.
5. Two representatives of Norwich Solar Technology were showing a representative of a New Hampshire logging company the project area so that he could evaluate access to the site.
6. We discussed the logging necessary for the Upper Loveland Road Solar Project.
7. The logger had several concerns with the project site.
 - a. First, the cell tower road is eroding and will need to be improved to get a truck up there.
 - b. Second, large logging trucks will not be able to negotiate the hairpin turn in the cell tower driveway. To get around the hairpin turn, the logger said it was necessary to remove all trees growing on the old log road south of the hairpin turn.
 - c. Third, large logging trucks will not be able to negotiate the turn from Upper Loveland Road onto the cell tower driveway. The logger intimated that he

needed extra space on Upper Loveland near the driveway to make the turn into the driveway. I assumed that was why he was pointing at my property.

I, Daniel Goulet, do hereby swear and affirm under the penalty of law that the information provided in my affidavit is accurate to the best of my knowledge and that I have personal knowledge of, and are able to testify as to the validity of the information contained in my affidavit.

Dated this 17th day of November in Norwich, Vermont,

/s/ Daniel Goulet
