Dear Ms. Hudson,

We have been made aware that Mr. David Blittersdorf is planning to develop Kidder Hill Community Wind as a 5 megawatt wind generation project based upon data that he obtained from a meteorological tower placed in Irasburg sometime in 2011-2012. We are also aware that regulations require a certificate of public good before placing any meteorological tower. We find no evidence that he received a CPG for the meteorological tower. If this finding is consistent with your records, we respectfully request that you refer this matter to the appropriate authorities for further evaluation and the initiation of the appropriate legal action.

We would appreciate hearing from the VT PSB upon review of this letter. Due to the nature of our concern regarding this issue, we will certainly appreciate a timely response.

Respectfully,

Irasburg Selectboard

Robin Kay

Brian Fecher

Brian Sanville
