Re: Tariff filing of Washington Electric Cooperative, Inc. for a 14.19% increase effective with service rendered November 1, 2022

Case No. 22-4100-TF

Dear Holly:

Please see revised Net-metering and Street & Area Tariffs in redlined and final versions. Please substitute these for the Net-Metering and Street & Area redlined and final tariffs filed as part of WEC's June 1, 2023 compliance filings.

The Department pointed out that the fixed fees in the versions of these tariffs filed on June 1, 2023 did not reflect the approved 12.83% increase. The tariffs filed today fully reflect the approved 12.83% increase and will be applied to the fixed fees effective July 1, 2023, when we begin a new billing cycle. Please note the rate applied to excess generation was not updated because we apply the state blended rate.

Please let me know if you have questions.

Sincerely,

Ron Shems
