We are writing in regards to the potential rate hikes for water in Woodstock. This is ridiculous. The Woodstock Aqueduct has spent the last ten years doing absolutely nothing to improve the infrastructure of the water system after it was destroyed during Hurricane Irene. They have paid their shareholders and let the village water system deteriorate. After the July floods we were without water for ten days. Our home only has half the amount of water pressure that it should have. The Woodstock Aqueduct has known this since July and has shrugged their shoulders about it. We do not believe that this company has the interests of Woodstock and its customers at heart and they should have to find their funds elsewhere to fix the problems that they have allowed to happen by neglect over the years. We cannot afford them. Thank you.

Chris and Carole Sparkes, 47 Terrace Street, Woodstock, Vermont
