I will be unable to join this evening's virtual public hearing. My husband and I are registered voters in Woodbury, VT. We also have commercial buildings in Barre and Northfield. We had tried unsuccessfully to have our legislators listen to us over our concerns of the higher costs for fuel and heating the Clean Heat Standard would cause us and most all of Vermonters. They did not take my opinion into consideration of our needs. Please consider what these high cost for these changes would do to us as Vermonters personally and how it will affect our small business, not only adding cost to us but cost to the customers of the businesses in our buildings. It is just not possible to survive. Thank you for attention to this matter.
