As The PUC has clearly stated that” items not included in the Draft CHS Rule in January 2025 will be developed through subsequent PUC orders”

Furthermore, This means much of the “meat on the bones” work for designing the Clean Heat Standard will happen only AFTER the Draft CHS Rule is delivered to the Legislature in January.

In conclusion, since there are a lot of consequential details of the Draft CHS Rule and will not be settled and known to Vermonters before the Legislature votes on whether to pass it into law in January, I wish to convey to the Utility Board and further Legislation to vote to **TABLE or vote down** this proposed CHS rule at this time.
