I am writing to make you aware that I am completely opposed to the Clean Heat Act. It appears to be very expensive which makes it unaffordable to many of us Vermonters. We as a state must get back to reality. One cannot have everything that they wish. We are already paying exorbitant taxes for things that really aren't necessary. The legislature seems to have a pie in the sky attitude when it comes to the budget. I have lived and worked here in VT my whole life and now as a retired person still working part time, I hope that I won't need to move away because of overspending on the States part. Yes I do believe that something needs to be done about the environment but it needs to come from Big Business not little old ladies like myself. Thank you so much for taking the time and reading my email. Sincerely,  
Alane Bruce, Brattleboro Vt
